

Rates

Rates are provided on enquiry and factor in facility size, Casemix types, coding resources available, Coder experience, travel time and distance.

Quality Assurance

At MediCODE we are committed to providing a professional, high quality service to both our Clients and our Coders.

Both are valuable customers and we welcome any suggestions or feedback on how we can improve our service and continue to meet your requirements.

MediCODE is committed to continuing professional education via industry conferences, workshops and seminars.

MediCODE recognises the expertise and knowledge that our Coders bring from serving on committees and subscribing to associations including QCC, CCSA and HIMAA.

Consider the Advantages

- Utilise an experienced Clinical Coder and avoid training/supervision requirements
- Benefit from the efficiency and productivity of a skilled coder
- Convenience - relax and let MediCODE organise suitable staff
- Flexibility & Reliability - our coders are available during ordinary working hours, evenings or on weekends
 - Competitive Rates
 - Available for travel

Clinical Coding Services

The Solution to Skilled Coder Shortages

MediCODE

Service Information

MediCODE Clinical Coding Services is a niche contract coding business owned and operated by a proprietor with several years of diversified coding experience achieved via a coding education at both tertiary and regional hospitals.

MediCODE was established after a survey of health care facilities revealed an increasing demand for qualified clinical coding staff due to a shortage of experienced Coders.

These shortages impact upon health information concerns such as revenue generation based on coded data, coded data quality, timeliness of data for clinical costing, research and indicators, and allocation of time to quality activities affecting accreditation.

MediCODE's aim is to provide a professional, quality service by contracting selective and highly skilled personnel for short or long term clinical coding contracts.

All it takes is an email to medicode@bigpond.net.au stating your site location and service requirements and we will happily coordinate the arrangements.

Experienced Clinical Coders are available to cover for:

- Recreation/holiday leave
- Unexpected/unplanned leave
 - Sick leave
 - Maternity leave
- Planned leave where a long term reliever cannot be justified
- Short or long term planned projects
- Employees undertaking fixed term of study
 - Organisational change
 - Seasonal workload increases
- Backfill whilst recruitment process is occurring

Awarded to Principal Coder

Testimonials

"Professional, highest quality, reliable and affordable are some of the benefits I've received from using MediCODE.

MediCODE helped us in an emergency situation that would have seen our coding turnaround time become a serious financial concern. To be able to get on board such an organised and experienced team of professionals that didn't have me worried about their quality of coding was a true saviour. Thankyou MediCODE for your assistance and I would never hesitate to call on you again for future assistance."
